

ACCOUNTING AND ASSURANCE

RELIABILITY AND INTEGRITY.

The professional accounting and assurance team of Apple Growth Partners provides the integrity and reliability in financial reporting demanded by today's business environment. Compilations, reviews and audits are performed by seasoned, Certified Public Accountants with consideration of conditions and trends specific to your industry. Because we work so diligently to learn your business, we can attest past performance, and offer insightful advice on improving your future bottom line.

COMPILATION SERVICES - JUST THE BASICS

- *basically, internal records are organized into a financial presentation*
- *we provide analysis only to the extent our client requests*
- *often, compilation services are provided to clients as a precursor to tax return preparation*

REVIEW SERVICES - WHEN YOU NEED MORE CONFIRMATION

- *a review is expanded to include inquiries and analytical procedures, but not verification of balances*
- *review services are used when a third party, such as a lender or investor, requires a higher level of assurance of financial statements*

AUDITING SERVICES - THE HIGHEST LEVEL OF ASSURANCE

- *audits are provided by a Certified Public Accountant who attests to the fairness and accuracy of your financial statements*
- *the scope of the audit includes observations, confirmation, and expanded inquiries that fully assess the financial position of your organization*
- *our audit services are used when management, shareholders or a third party require the highest level of assurance*
- *audits may also be performed as a result of bonding requirements, threshold credit provisions, company growth, change in shareholder base or as part of a planned exit strategy*

ACCOUNTING SERVICES - BEYOND THE FINANCIAL STATEMENTS TO MAKE THE MOST OF YOUR BUSINESS

- *with an eye on your bottom line, we can provide cash flow, budgeting, breakeven and profitability analyses*
- *as a business consultant, we'll make recommendations on the expansion, transition or succession of your business, with due concern for tax, reporting, financing and environmental issues*
- *as consumers of numerous financial software packages, our team is uniquely qualified to recommend accounting software solutions for your organization, provide the training needed to keep your staff current and deliver on your investment in accounting technology*
- *when required by sudden staff changes or other unforeseen events, we can supply outsourced staff to function as your internal accounting and bookkeeping department*
