

# EXPERIENCED + TRUSTWORTHY BOOKKEEPERS FOR YOUR SMALL BUSINESS

We can manage your books from anywhere  
with our virtual bookkeepers.

## EXPERIENCED BOOKKEEPERS

Our staff has years of bookkeeping experience for small businesses and training in a variety of programs.

## IMPROVE CASH FLOW

We've helped companies retrieve past due AR, maintain updated billings, correct mistakes, and improve overall cash flow.

## SCREEN CANDIDATES

If your business needs a bookkeeper on staff, we can help screen candidates and conduct competency reviews to ensure you hire the best person for your needs.

## CLIENT TESTIMONIAL

*"Melissa brought stability, professionalism, and consistency across our bookkeeping, billing, and payroll functions. She helped streamline our processes allowing for more accurate and consistent billing and more timely client payments—all of which are critical for our business. I saw improvements including better record keeping, fewer errors than before she started working with us and more timely client payments."*

TOM KNAUER  
President, Artists Inc.

## CLIENT TESTIMONIAL

*"Kristy was able to take all financial functions out of our hands and gave us the confidence that it would be done correctly every week. Our internal Director of Operations was able to seamlessly transition into her new role and take over a well organized financial function. This allowed her to focus on more long-term strategic financial matters. I highly recommend this service to any small business looking to focus on growing their business and not having to worry about their financial functions."*
